

FOR IMMEDIATE RELEASE

Allen Corporation of America's (Allen) Logistics Services Division Awarded Five Year Subcontract from Filius Corporation to Provide Support to the Department of Air Force

November 19, 2020. The Logistic Services Division of Allen Corporation was awarded a five-year subcontract from Filius Corporation, to provide support to the Department of the Air Force, Air Force Materiel Command, and Air Force Life Cycle Management Center. The team will provide the Control and Reporting Center Contractor Logistics Support (CLS) for the AN/TYQ-23 V1 system. The AN/TYQ-23A V1 is a Command and Control Tactical Air Operations Module mobile weapons system designed to help the branch's air controllers process radar and voice communications. It provides the capability to plan, direct, and control tactical air operations and perform specified airspace management tasks. The system is currently coming out of its production phase and will need CLS support including maintenance activities for associated hardware and software troubleshooting, resolution diagnosis, and ensuring a fully operational status. The support will also include emergency and preventative maintenance for any future technologies designed to be implemented in the TYQ-23A.
