

WetStone Partners with DGForensiks

Posted by wetstone on May 18, 2021

Skaneateles, NY – May 18, 2021 — WetStone Technologies, the world’s leading provider of commercial steganography detection and analysis software, today announced a value-added reseller agreement with DGForensiks, an international partner dedicated to addressing the digital forensics requirements of their clients in Mexico. The agreement encompasses the resale of WetStone’s StegoHunt™ MP, StegoCommand™, and Gargoyle Investigator™ MP products.

“WetStone has had a successful history of working with DGForensiks to provide our digital forensics solutions to the law enforcement and intelligence community in Mexico,” said Carlton Jeffcoat, Senior Vice-President of WetStone Technologies. “As a member of our reseller network, we look forward to partnering even more closely with DGForensiks to address the needs of this important market with our industry-leading malware discovery and steganography detection and analysis tools.”

“The world is changing and moving fast, and we must move in the same direction with our everyday investigations. That is why DGForensiks evolves constantly with its technology to offer the best solutions to our customers across the country,” said Cindy Vazquez, Founder of DGForensiks. “WetStone Technologies has proven to have the best tools for solving problems associated with Malware Discovery and Steganography. It will be our pleasure to work together to provide the best solutions and services.”

WetStone Technologies, Inc.: (www.wetstonetech.com) is a global provider of innovative cyber security solutions. Since 1997 WetStone has equipped their customers with the research, technologies, trainings, and services that are needed to defend against today’s cyber criminals.
